SEEDS OF THE FINEST NAMED ENGLISH DELPHINIUMS

"THE SHAH"

"MILLCENT BLACKMORE"

1933 FRESH SEED CROP—*Delivery from last of August on.*

PUDOR'S, INC., *Delphinium Specialists*

PUYALLUP, WASHINGTON, U. S. A.

English Named Varieties *the Finest 1933 Novelties*

If you would like to grow some seedlings from some of the finest English varieties by Blackmore & Langdon—everyone a Prize Winner—we would recommend any or all of the following 1933 named Novelties, but bear in mind, that we can not deliver this seed until the last part of August; if you sow the seed in a cold frame it would not be too late to obtain nice seedlings before freezing weather sets in and winter the little plants in the frame, and in a milder climate you can sow outside and winter the seedlings out of doors, protected by a little light covering. Or you can sow the seed early in the Spring, but if you keep it over be sure and keep the seed in a tight, air-prove, dark container and keep it in a COOL PLACE—not in a drawer in your kitchen or library, where it would soon lose its vitality. We make most of our sowings in Spring—April and May—and always get a wonderful germination with this difference; in the Fall, the new seed will germinate within 10 to 14 days, in the Spring, it takes 3 to 5 weeks, depending upon weather conditions.

BLUE GOWN (B. & L.) Perfect ultramarine blue self; semi-double with small black eye, shapely spike of open formation. The plant is a free and graceful grower with good secondary spikes 6 ft. This variety is a poor seeder and seed therefore short and more expensive.....**Large pack \$2.00**

LADY ELEANOR (B. & L.) Sky blue with light shades of pale mauve (pink), the blue much predominating. The flowers are double, the inner petals being waved give a wonderful effect on long shapely spikes; free flowering habit; 6 ft. This variety is also a poor seeder and seed therefore short and more expensive.**Large pack \$2.00**

*****LADY JANET.** Deep rich blue, single with an occasional extra petal; florets of extra size and substance, slightly cupped. Massive tapering spike, well-covered with 2 to 3 ft. of bloom. This variety received an award of merit from the British Delphinium Society.....**Per pack of approximately 200 seeds \$1.50**

*****A. J. MOIR.** This variety is without doubt one of the most outstanding novelties; it was awarded the British Delphinium Society's Gold Medal and a Special Prize. The semi-double flowers are of extra good substance and very large. The colour, however, is its chief merit—CORNFLOWER-BLUE with white eye, flecked blue. 5 to 6 ft...**Per pack of approximately 100 seeds \$1.00**

LADY BARBARA (B. & L.) Beautiful pale mauve-pink, lightly touched sky-blue, large semi-double with white eye; very vigorous.

Per pack of approximately 100 seeds 75c

LADY GWENDOLIN (B. & L.) Semi-double, deep sky-blue with white eye. Vigorous and claimed to be mildew-proof..Per pack of 200 seeds (no ½ pks.) \$1.00

PHYLLIS (B. & L.) Light mauve, almost pink; semi-double, large flowers and a strong grower.....Per pack of 200 seeds (no ½ packs) \$1.00

The above represents the cream of the newest English varieties and since stock is very limited seed is also very limited; first come, first served; undoubtedly all available seed for this season will be sold out before spring.

BLACKMORE & LANGDON'S NOVELTY MIXTURE containing the seed of many fine named and unnamed new seedlings1/16 oz. \$1.50

Per pack of about 200 seeds 75c

Older Sterling English Varieties Hard to Beat

NORA FERGUSON. A pale blue shaded soft pink, semi-double. Award of Merit. A very beautiful variety.

THE SHAH. Deep rosy-lavender, dark eye; large semi-double; spike long and finely proportioned. Award of Merit. We have grown some wonderful seedlings from this variety.

SIR DOUGLAS HAIG. Deep purple and blue pips, 3 ins. across, Spike immense both in width and length. Award of Merit.

MILLICENT BLACKMORE. A spike of perfect form, pips very large, blue and mauve, black center. Award of Merit.

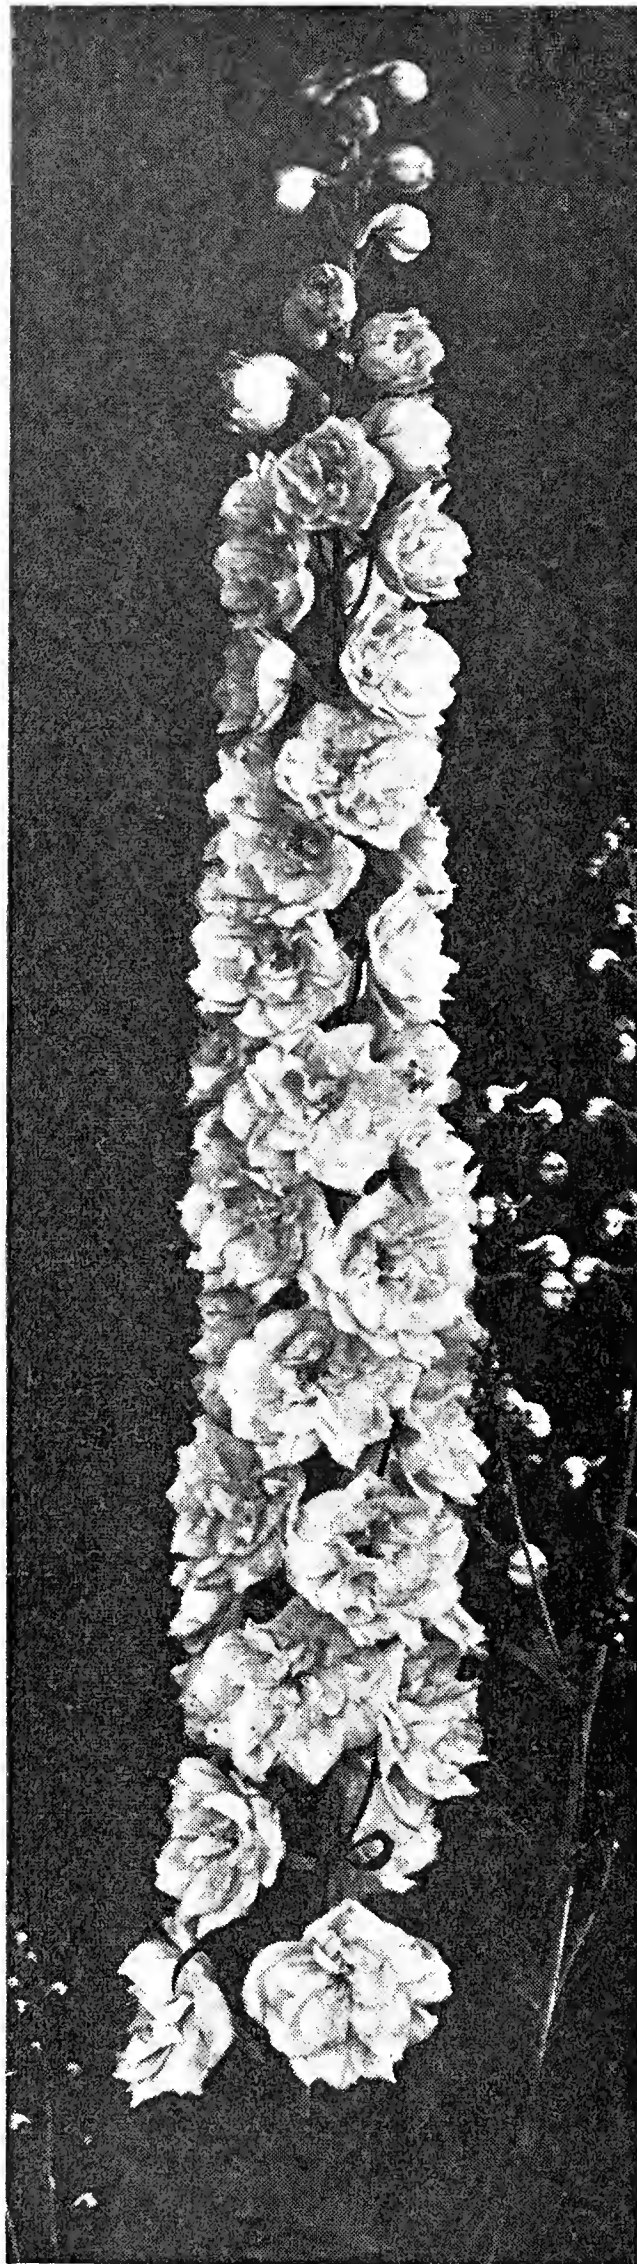

Seed of any of these four beautiful varieties.....1/16 oz. \$1.00
Per pack of 200 seeds (no ½ packs) 50c

NOTE: 1/16 oz. contains over 3 times as many seeds as 1 package.

REMEMBER! The above English seeds are not available until the last of August and while all the seed is fresh 1933 seed and has been carefully tested, we do not guarantee that you will be able to raise seedlings from it; too much depends upon each individual's facilities, experience and judgment. The seed is good! When planting it, do not cover it more than ¼ of an inch at the very most.

Puyallup, Wash., July, 1933.
